

ALDRICH CONFERENCE 2018 POSTER SCHEDULE

23rd, EN4000, 5:00- 6:00	Ederson Villamizar	Geophysics	Constructing a crustal-scale 3-D Earth model of offshore-to-onshore western Newfoundland ...
	Emily Devereaux	Epidemiology	Reduction of pediatric emergency dept. length of stay with introduction of multiple clinical practice guidelines
	Gerissa Fowler	Genetics	Understanding the role of GDP-fucose synthesis in blood vessel stability using zebrafish models
	Chameera Illawathure	Hydrology	Calibration of a GPR based methodology for simultaneous soil moisture and water table monitoring...
	Atefeh Ghorbani	Immunology	Potential impairment of functional antibody affinity maturation in the Atlantic cod
	Gabrielle Logan	Medicine	Appropriateness of X-ray & CT Imaging for Low Back Pain: A Systematic Review
	Brady Reid	Environmental	Research and Reconciliation: Decolonizing with the Flat Bay First Nation
	Alyona F. Lewis	Medicine	Cancer Incidence in Newfoundland and Labrador Population with Psoriatic and Rheumatoid Arthritis
	Caroline Manto Chagas	Medicine	Anticancer Drugs and Their Undesired Side Effects
	Veronica Reid	Ocean	Maneuvering model of vessels in pack ice conditions
	zahed khatooni	Pharmacy	Microtubules Nucleation by γ -Tubulin
	Erin Kelly	Pharmacy	Effect of polyphenols on markers of neurodegenerative disease
	Anke Krutof	Process Eng.	Co-pyrolysis additives to enhance pyrolysis oil and char quality
	Tobias Brueckner	Process Eng	Simultaneous enhancement of pyrolysis oil quality and production of value added chemicals ...
	Md Alauddin	Engeneering	Kick detection in managed pressure drilling using particle filter
	Majid Afshar	Engeneering	A Specialized Attribute-Based Access Control for Healthcare Environment
	Ibrahim Ahmed	Engeneering	Modeling and Development of Insulation Materials in Subsea Pipelines
	Tayebeh Sohrabi	Education	Social Skills Development in Elementary Students: Bringing Games into Play
Alicia Taylor	Epidemiology	Breast Milk Expression after Domperidone Treatment in Postpartum Women ...	

ALDRICH CONFERENCE 2018 POSTER SCHEDULE

22nd, EN4000, 5:30- 6:30+A1:D39	Adetola Koleade	Epidemiology	Prevalence and risk factors of ACOS (Asthma-COPD Overlap Syndrome) in adult Aboriginal people
	Jason Dicker	Environmental	Impacts of the George River Caribou Herd moratorium on northern Labrador Inuit ...
	Riad Eissa	Agriculture	Greenhouse gas (GHG) emissions from forage cropping systems and fertilizer management effects
	Alanna Felt	Anthropology	The Bicycle Politic: Tactical Urbanism and the Conditions of Possibility in Bicycle Infrastructure Planning
	Tsahil Albishi	Biocemistry	Phenolic contents of different woods and their antioxidant activities
	Mrunal Dayma	Biochemistry	Physiological responses to olfactory trace amine receptor activation
	Albert Sey	Agricultural	Resepone of irrigated three maize varieties to ammonia fertilization
	Breanna Lane	Psychology	Risk of Return: Defining and Predicting Fear of Cancer Recurrence in Young Adults with Cancer in Canada
	Thanjida Akhter	Computer Sci	A Study on Frequent Pattern Mining.
	Julie Carberry	Medicine	An Analysis of the Experiences of St. John Ambulance Therapy Dog Program Volunteers in St John's NL
	Sana Jamil	Education	Critical Factors for Evaluating the Effectiveness of Web Based Learning in Adult Learners
